USING DRONES

In order to minimize the impact on wildlife and on the customer experience, Sépaq does not allow recreational drone use at the establishments it manages.

Concerning drone use for non-recreational purposes, authorization must first be obtained from the director of the establishment concerned and this is conditional on various factors: location, time of year, reason, and more. The reasons for drone use could be related to the production of photographic or cinematographic material, scientific partnership research, or security or inventory needs on the part of recognized authorities. Authorization could be revoked in the event of a disturbance to on-site peace and quiet or non-respect of the privacy of other users. Compliance with Transport Canada stipulations will also be required.

SMOKE-FREE ENVIRONMENT

Tobacco and cannabis regulation acts, as well as Sépaq's policies prohibit in particular all persons from smoking inside rooms, accommodation units (cabins, rustic shelters, yurt, ready-to-camp, etc.), public areas (meeting rooms, restaurant, bar, reception area, etc.). Out of respect for the air quality, a charge of \$200 will be charged for all offenders who smoke in these areas.

Closures or prohibition of activities

In the interest of safety and prevention, Sépaq reserves the right to prohibit the practice of activities normally offered or traffic in an establishment or sector thereof, when it deems it necessary or if there are risks to the safety of persons. Only the cancelled activity can be refunded or compensated.
